Fictional journal: visual cover

Original teaching file. Every person and situation is invented.
This file is not an output captured from Adobe Acrobat.

[redacted]

What I noticed: I wanted to interrupt during a conversation.

What I did: I waited to check one meaning.

Next step: Ask which time works.

What this example establishes

The black rectangles cover the name and email visually.

The underlying name and email remain extractable as PDF text.

The author metadata also retains the invented name.

Painting a rectangle is not an applied content-removal operation.
